Subject: RE: April 6, 2010 conference call concerning Libby OUs 1 and 2

Andy,

Good to hear from you. My understanding was that Richard Opper (head of Montana DEQ) reached out to introduce Carol Rushin and me, and that Carol Rushin suggested that Carol Campbell and I speak to open up a dialogue about the issues the folks in Libby are facing. Because of the informality, I have not prepared an Agenda.

By accepting Carol Rushin's invitation to talk to Carol Campbell, I was in no way meaning to circumvent your representation of Region 8 in this matter. Based on Carol Rushin's email response to Richard Opper (on which I was copied), I was thinking of this as an informal conversation following up on a very nice introduction from the head of the Montana DEQ.

We continue to hope that the conversation is productive, and that it is a conversation rather than a monologue or presentation.

Mike, good to see your name here! Hope all is well out there. Give Karen my best, and of course if you are on the call tomorrow I will talk to you then.

We will call Carol tomorrow morning at 8:30 MDT unless you tell us otherwise.

Best regards,

Elizabeth

Ms. Mack:

Do you have a proposed agenda for tomorrow's conference call with Carol Campbell, scheduled for 8:30-9:30 MDT? Because the comment periods on the proposed plans for OUs 1 and 2 are now closed, and because the remedy selection decisions are pending, our ability to discuss these matters is limited. Accordingly, we plan to listen to your presentation, and may ask you some clarifying questions about points you make, but we do not expect to make other comments during the call. Also, please keep in mind that since the comment periods are now closed, EPA will not necessarily consider any new information.

For any future calls or meetings with EPA Region 8 managers or staff that concern the Libby Asbestos cleanup, please work through me. I represent EPA Region 8 in this matter.
